

Find & Replace

Browser Extension for Text Editing

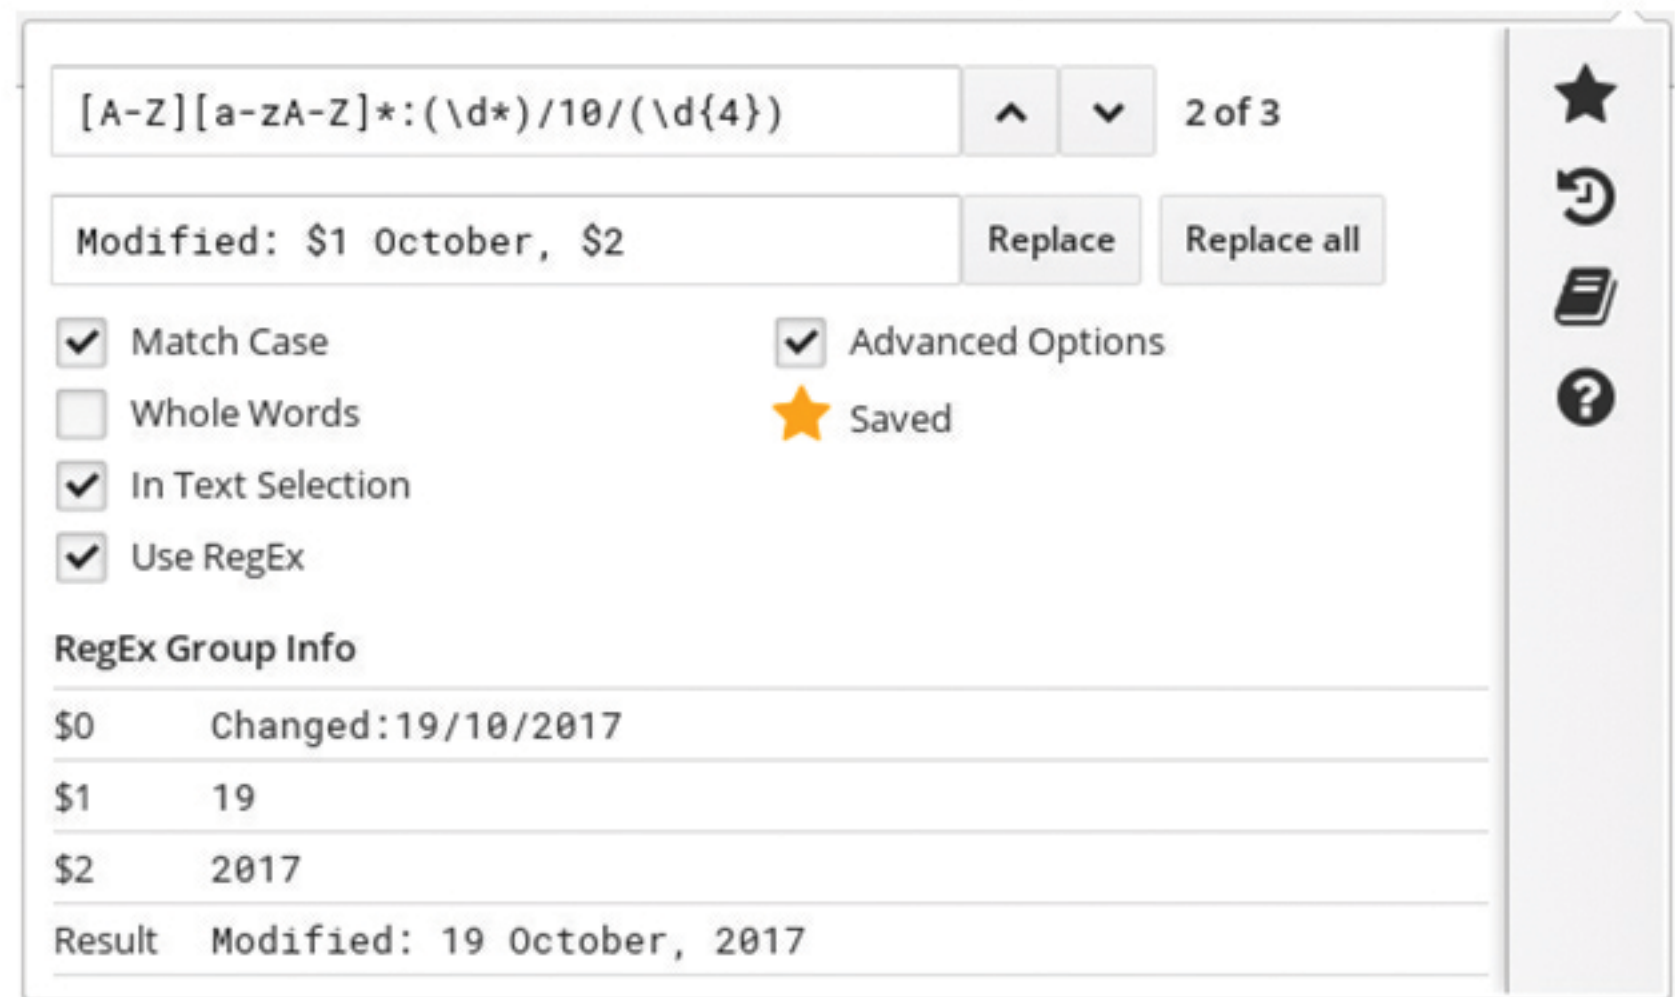

A search & replace tool for input fields and editable text content in your browser.

Find & Replace for Text Editing is an extension that allows you to search and replace text in input areas, directly in your browser.

It includes search history, favourites, templates, highlighting, and advanced regex patterns.

Use it for composing long emails, blog articles, or forum posts.

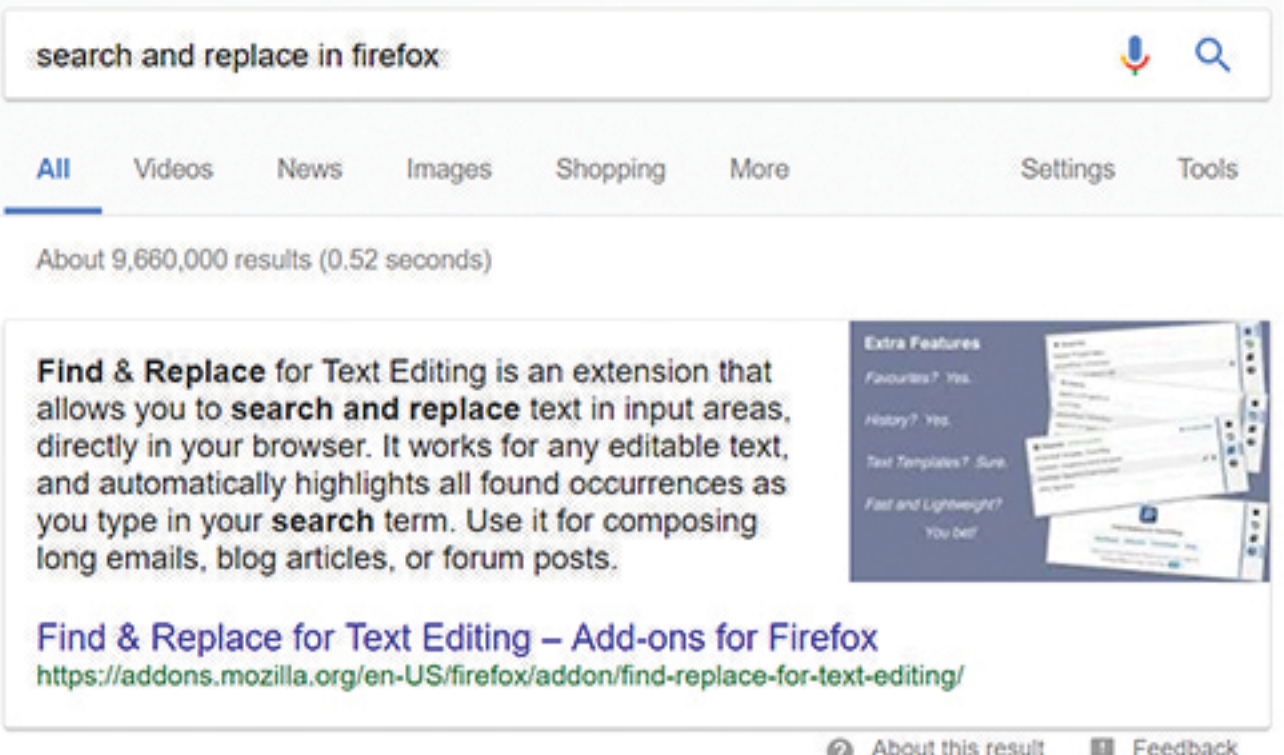

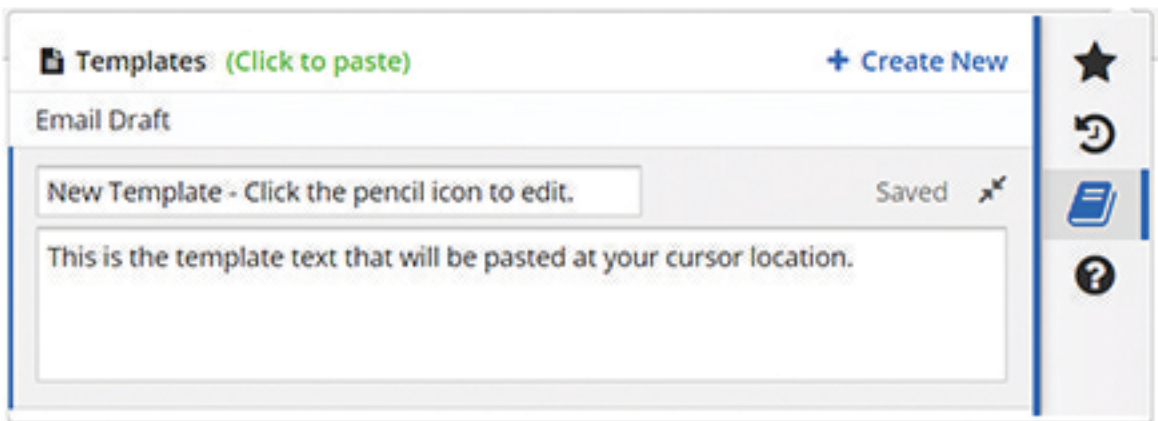

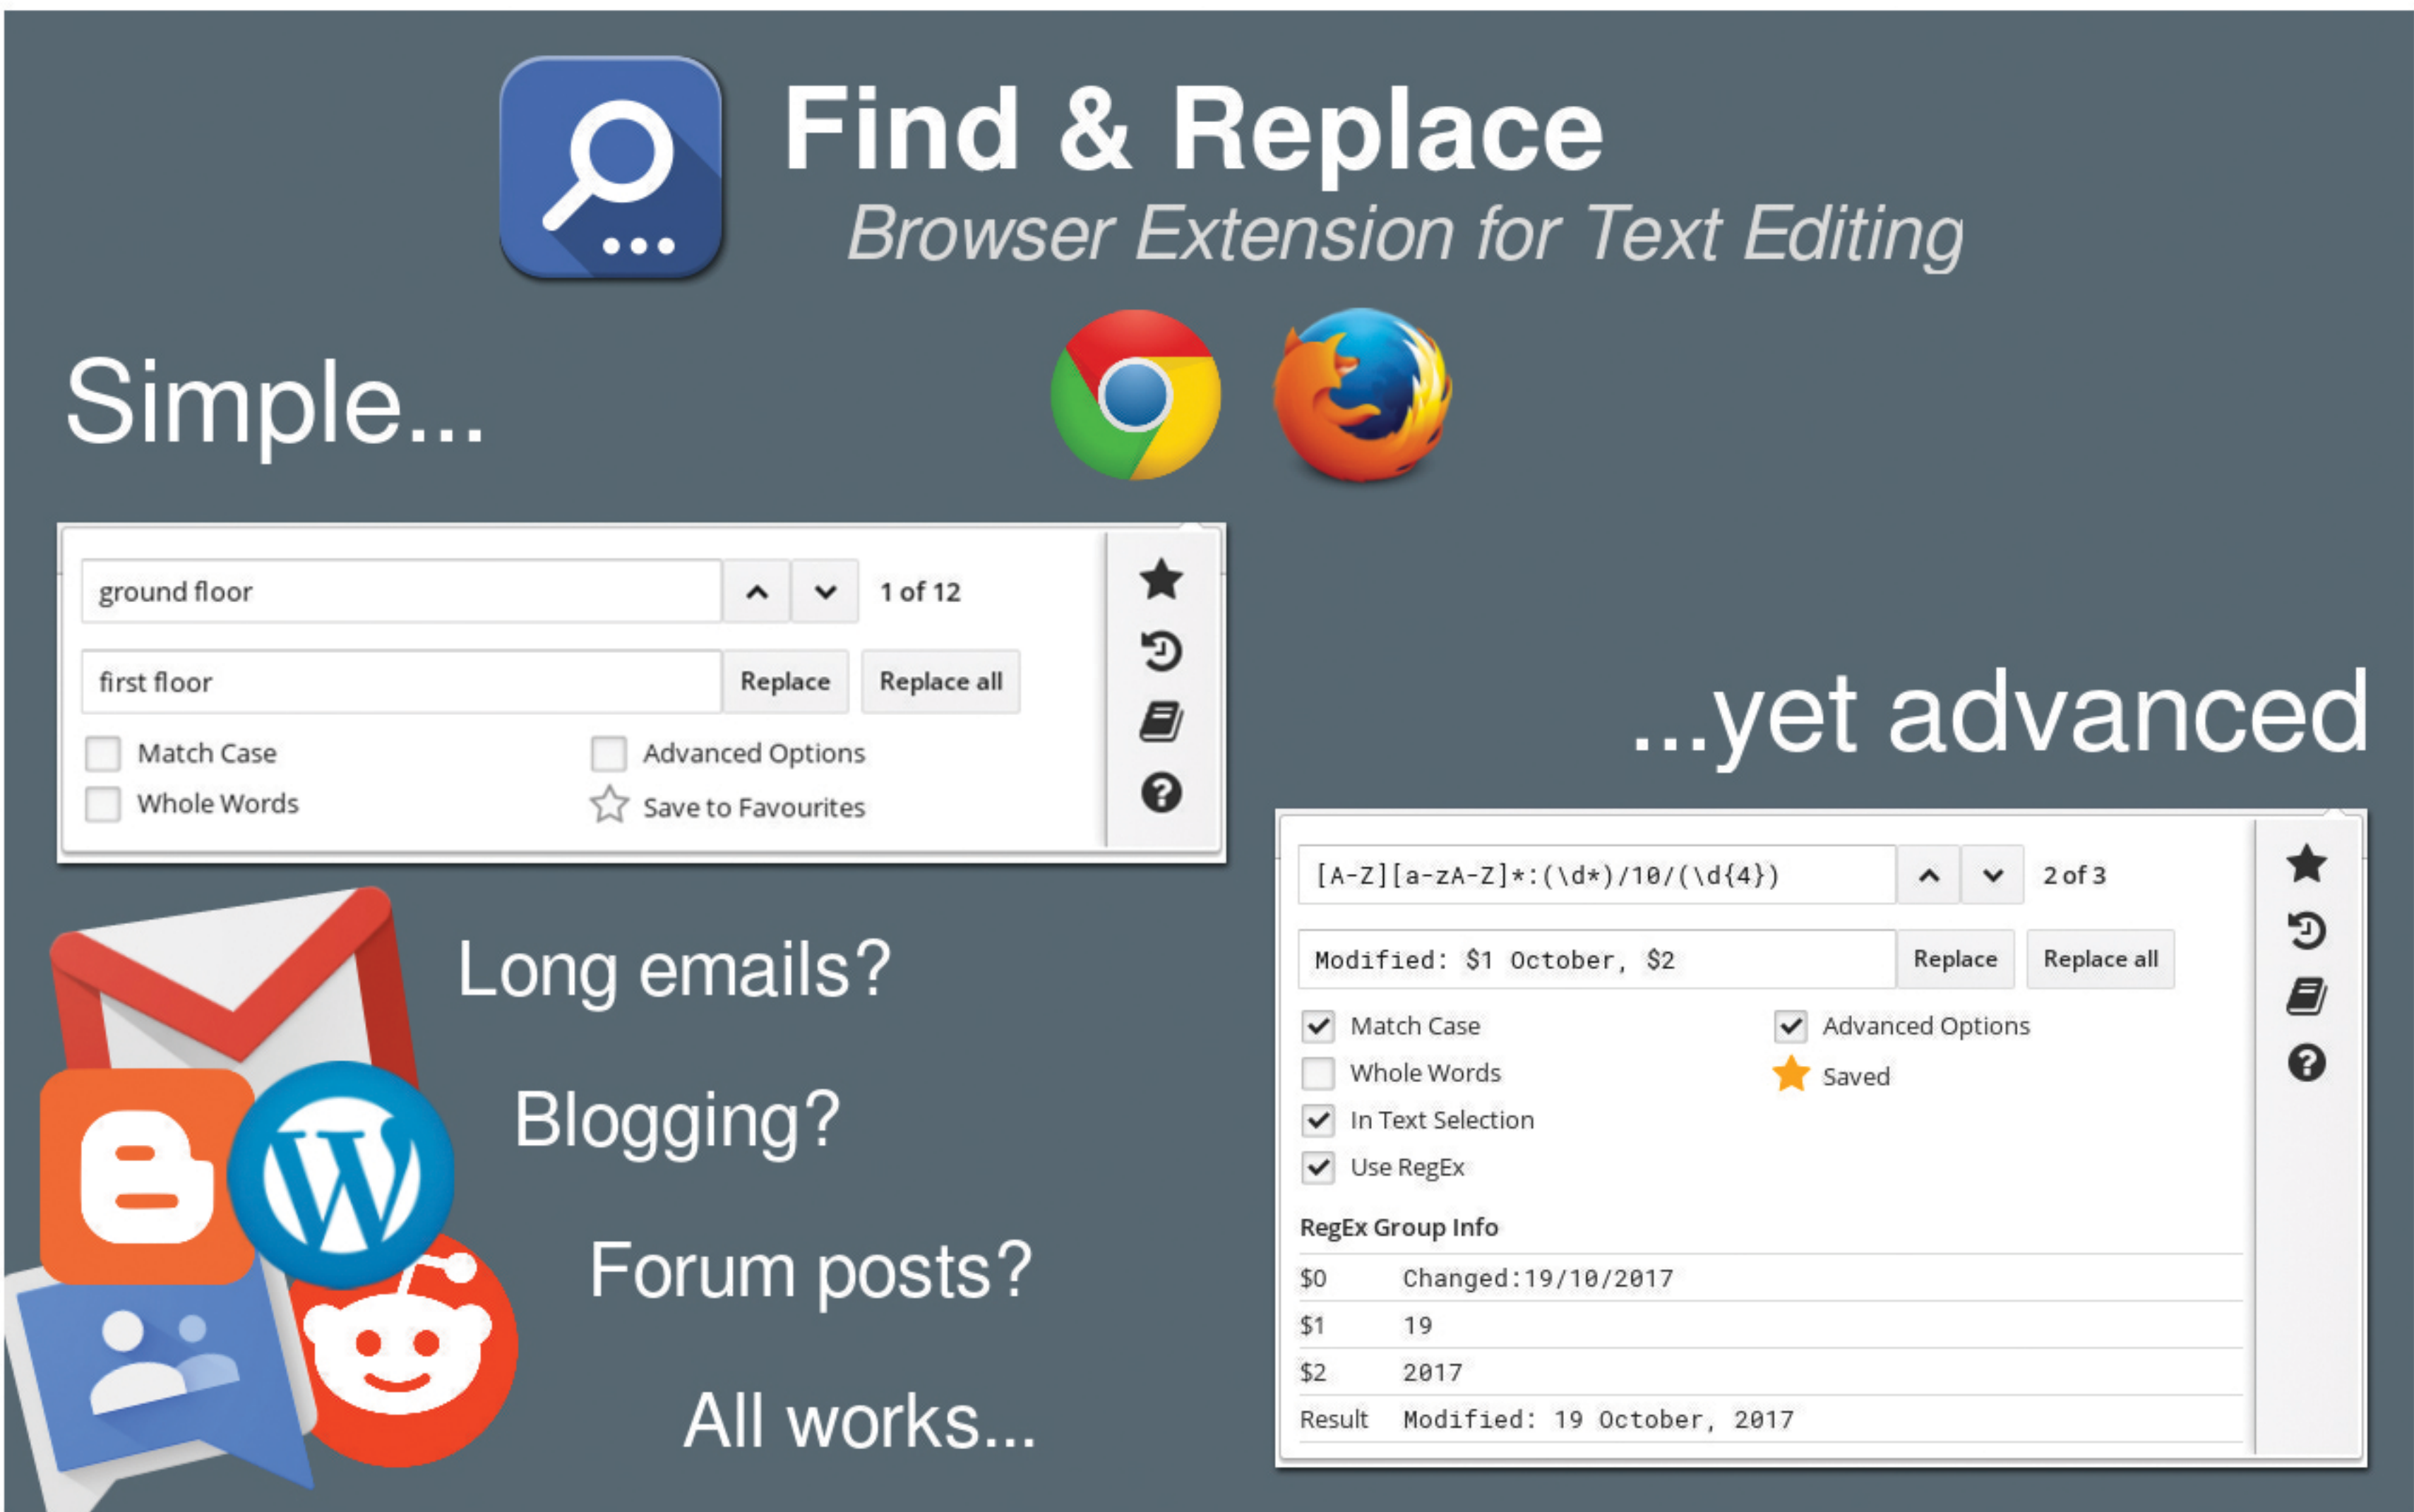

Extra Features:

- * Save to Favourites
- * History
- * Text Templates (click to paste into page)
- * Transform selection to upper/lower case
- * Regular expression info previews

Search Options:

- * Match Case (case-sensitive search)
- * Whole Words
- * Regular Expressions
- * Limit search to text selection
- * Include single-line inputs in search

Extra Features

Favourites? Yes.

History? Yes.

Text Templates? Sure.

Fast and Lightweight?

You bet!
